

Winnipeg Municipal Election 2022 – Candidate Responses Sept 25 2022

Fort Rouge – East Fort Garry - Michael Thompson

Having a place to take your family, your pets, for yourself or for meeting your friends is important.

Our ward has some amazing locations - The Forks, the rivers, Memorial Park, Millennium Library Park, dozens of schools, community centres, lots of parks and playgrounds. If you ever get a chance, take your kids to the playgrounds in Wildwood parks. My focus is making sure we utilized the green space to what people need and want for today's activities. Our ward has many people new to Canada so they bring diversity and different interests. My plan would be to review what we have and develop more dog parks, soccer fields and basketball courts. By making our green space to what is growing is helpful. Pickleball, ultimate frisbee, bike polo. Having greenspace in our ward that helps these activities makes us a leader in the city. My dedication to green space is solid, integrating green space in our city helps people mental health, communities and livable city. I will always advocate for green space so vote for me and allow me to work for you. My focus is our ward and you!

Regards,

Michael Thompson
