
Vote NO to Leasing City Owned Golf-Course Lands OURS-Winnipeg

City Council is to vote on leasing Harbourview, Crescent Drive, Windsor Park and Kildonan Golf Courses and **selling** part of Blumberg at May 29, 2013 Council Mtg.

Public golf courses lands are for the public good. They are not a liability. Preserve OUR greenspace.

Leasing does not ensure:

- Winter activities will be allowed
- Fees will remain accessible
- Management of golf courses will be improved
- Golf course/greenspace will be protected
- Accountability and transparency will occur
- Golf courses will not be developed
- Golf courses will remain public assets

Facebook

Leased golf courses are privately operated and their business falls under privacy legislation leaving no public access or scrutiny of their activities.

Leasing is the big first step to selling the golf courses, as planned in Golf Convergence Report

City is not revealing financials of the golf courses even in response to the Manitoba Ombudsman.

We want to keep these greenspace assets to pass on to future generations not contractor to contractor

(See reverse for Councillors' contact info)
