

# Sounding the Alarm for Winnipeg Greenspace

Two City of Winnipeg initiatives will decrease publically owned greenspace (on the map) - regional parks, nature parks and golf lands

MAP OF MAJOR OPEN SPACES

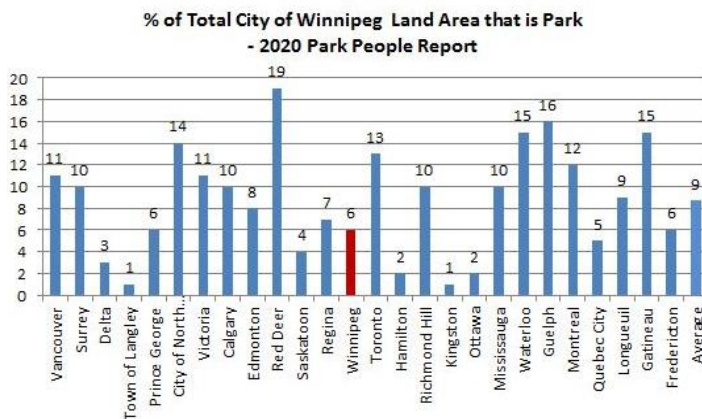

Map 14

## Urgent - Public Hearing May 13

City of Winnipeg at 6% is below average for public park land compared to 9% Canadian city average

Ties for 18th out of 26 cities  
- Park People Report 2020

1. OurWinnipeg 2045 and Complete Communities 2.0 are City's 25 year vision, long term planning documents. They will decrease public parks and golf lands by enabling ad hoc development on Major Open Spaces & Golf Lands.
2. Study to Repurpose up to 30% of Public Golf Lands including sale for development of housing.

Instead of plans to protect greenspace the City has laid out a multi-step process enabling development and reducing public greenspace.
